Filipino ●●●●●

AVAILABILITY

Full-time • Remote

Comfortable with US, AU & EU business hours.

Usually replies within 24 hours.

PROFILE

Versatile remote professional with **9+ years of experience** helping businesses grow online through **smart AI automations, high-converting WordPress / Elementor websites**, compelling graphic design, and engaging video content. I combine an engineer's structured problem-solving with a designer's eye — and pair deep creative skills with cutting-edge AI, from **Claude-integrated n8n workflows** to AI-generated visuals — to deliver results faster and at higher quality. One developer, the whole spectrum: everything you need to launch, sell, and scale.

EXPERIENCE

AI Automation & WordPress Specialist

2016 – Present

Freelance via OnlineJobs.ph — Remote, Global Clients (US, AU, EU)

- ▶ **Delivered 50+ projects** end to end for global clients — websites, stores, automations, design, and video — all under one roof.
- ▶ Build **AI-powered automation workflows** with Zapier, Make.com, and n8n — including **Claude AI integrations** that automate lead handling, CRM updates, and content pipelines, saving clients hours of manual work weekly.
- ▶ Design and develop **WordPress sites with Elementor Pro** — landing pages, business sites, and WooCommerce stores optimized for speed, SEO, and conversions.
- ▶ Create high-impact **brand and marketing visuals** with Photoshop, Canva, and AI image generation (Flux, Seedream, Magnific, Higgsfield).
- ▶ Produce professional **video content** with Premiere Pro and CapCut, enhanced by AI video tools (Veo, Runway, Kling, Luma Ray, Seedance).
- ▶ Maintain **long-term client relationships** — many sites designed, built, and still maintained end to end today.

Owner & Creative Director

2015 – 2016

WLSJ Designs — Philippines & International

- ▶ Founded and ran a creative studio offering **web design, video editing, and graphic design** to small businesses locally and abroad.
- ▶ Managed the **full client lifecycle** — from brief to final delivery — building a strong foundation in freelance operations, pricing, and project management.

Mechanical Engineer

2010 – 2015

Various Private Companies — Philippines

- ▶ Applied engineering principles across multiple industries — developing the **structured, analytical problem-solving mindset** I now bring to every automation and web project.

FEATURED LIVE PROJECTS

mauldinchristian.org LIVE

Mauldin Christian Academy

HOW I WORK

01

Discovery

Understand your goals and the right strategy.

02

Design

Craft wireframes and a flawless UI.

03

Development

Clean, fast, quality builds & workflows.

04

Launch

Test, deploy, and provide ongoing support.

WHY HIRE ME

- ✓ **Engineer's discipline, designer's eye** — structured problem-solving meets creative craft.
- ✓ **AI-forward** — early adopter of Claude AI, n8n, Flux, and Veo; I use AI to deliver faster, not cut corners.
- ✓ **One developer, the whole spectrum** — automation, web, design, and video without juggling multiple freelancers.
- ✓ **Client-first & deadline-driven** — responsive, independent, and committed to over-delivering on every project.

Let's build something great together.

Available full-time for AI automation builds, WordPress/Elementor projects, and design & video work.
